# Retail Management Solution

shopkeeper™

As a market leader for retail point of sale (POS) software, **Markinson Business Solutions** is dedicated to the creation and provision of innovative retail solutions.

Shopkeeper is a 'one stop shop' for all of your retail software requirements. This scalable tool improves operational efficiency and productivity across multiple sites, allowing access to inventory, stock items, ordering strategies and multiple pricing levels from a central, easy to use interface.

Key features of **Shopkeeper** include:

- Fully integrated software: front office, back office, EFTPOS, inventory, financials
- End-to-end solution: software, hardware, support
- Intuitive: from touch-screen Point of Sale through to Head Office reporting and analytics
- Customisable: access to developers to provide a system that meets your retail needs
- Flexible: for single or multi-site locations, with Head Office control and decision making capabilities
- Customer engagement: from loyalty, gift cards, and laybys, through to custom ordering
- Interoperable: built-in reporting engine with pre-configured interfaces and business reporting tools to drive your business decisions
- Fully integrated eCommerce module with real time transactions and updates
- Mobile access for sales and inventory management.

This highly flexible package is designed to optimise the efficiency of your business, while allowing access to essential information at the touch of a button. Markinson can configure the software to suit specific industries, ensuring a perfect fit with your unique business requirements.

About Markinson

Established in 1986, Markinson is a business software company, dedicated to the creation and provision of innovative business solutions to organisations throughout Australia, New Zealand and the Asia-Pacific region.

As part of Constellation Software Incorporated, via its Vela Software Operating Group, Markinson benefits from a strong corporate platform and international support, yet utilises its proud 30+ year history of local industry experience to work closely with customers to support the achievement of business requirements.

Our range of solutions is as diverse as our clientele and we couple these highly flexible software solutions with consistent excellence in customer service.
